

# Oxford Life Annuity Training

You must complete your annuity product training after you have completed your e-contract and are able to log into the Oxford Life website. To begin the training, log into the [Oxford Life website](#) and click the Annuity Certification menu item under the Producer Support -> Producer Education menu.

The screenshot shows the Oxford Life Insurance Company website interface. At the top left is the Oxford Life Insurance Company logo. On the top right, there are navigation links for Home, Contact, and Producer Logoff. Below the logo, there are four main menu categories: My Tools, My Business, Producer Support, and Logoff. The Producer Support menu is expanded, showing a list of options: Producer Education, Newsletters, Producer Bulletins, Medicare Application, AML Training, Annuity Certification, and Training Webinars. A red arrow points to the 'Annuity Certification' link. Below the menu, there is a 'Welcome to the Producer Support' section with a brief description. To the right, there is a 'Change to a different Producer #' section with contact information for the company, including the address in Ft. Lauderdale, FL. At the bottom, there is an 'Announcements' section with a date '5/28/2013 - GLWB/Annuity Product Update' and a brief notice about interest rate changes.

5/28/2013 – GLWB/Annuity Product Update

Due to the persistently low interest rate environment, we have been forced to make some minor changes to
